EXPERIENCE

Software Engineer - React / ReactNative 01/2023

Cognizant Softvision Iași, Romania

- I contributed to the development of a white-label project that offers users a comprehensive mobile banking solution, essentially putting a bank in their pocket. This app allows users to seamlessly transfer money, check account balances, pay for goods and services online, and deposit money and checks. It aims to streamline various financial activities, providing a convenient, all-in-one platform for managing personal finances directly from their mobile devices.

Frontend Web Developer - React 07/2019 - 01/2023

Bytex Software Services Iași, Romania

- I began developing the user interface for a SaaS platform designed for multi-platform cluster management with Kubernetes. The goal was to simplify the deployment, management, and operations of Kubernetes clusters across various environments, including on-premises and public clouds. The platform provides features like automation, policy management, and multi-cluster management to streamline Kubernetes operations for enterprises.

Trainer 03/2021 - 04/2021

FII Practic Iași, Romania

- I've had the pleasure of being one of the trainers for a React.js beginner course aimed at helping Computer Science students kickstart their journey into frontend development.

Frontend Web Developer - React 07/2018 - 06/2019

Digitalya OPS Iași, Romania

- I've helped develop an interface for a Wi-Fi access points and IoT solutions provider. The project delivered cost-effective, plug-and-play solutions designed for easy implementation by businesses. In addition to their enterprise solutions, they offered a consumer app that allowed users to connect to both free and premium Wi-Fi hotspots."

Intern 04/2018 - 06/2018

Digitalya OPS Iași, Romania

- This is where I began my career as a frontend developer, focusing on mastering the complexities of JavaScript and React.js.

EDUCATION

Bachelor's degree 10/2015 - 07/2019

Gheorghe Asachi Technical University of Iași Iași, Romania

- Computer Engineering

SUMMARY

I am a dedicated software engineer with 6 years of experience, specializing in web development for the past 5 years and recently expanding into cross-platform mobile development. This blend of skills ensures a comprehensive approach to both web and mobile projects, offering versatile and innovative development capabilities. As for personal skills, I'm a fast learner, communicative and well organized
